INFORMATION NEEDED.

Since the Imperial government has placed restrictions on several articles coming into the old country we have had several inquiries as to what may or may not be sent through the mails to friends across the pond.

In some cases our townspeople have had parcels returned to them from the dead letter office with the instructions that the parcel could not be forwarded to its destination as there were some articles in it which were on the restricted list.

Inquiry at the post office shows that there are no instructions there as to what may or may not be sent by mail to the old country. It seems to us that the postal department should keep the public informed in this matter through the post office officials, as a large number of parcels are now being sent to friends and relatives in the British Isles. It should be an easy matter to prepare a list of goods prohibited and sent to each post master. This would save a lot of extra expense and trouble.

The only information we could get in this matter was in the following paragraph clipped from an exchange:

"Sugar refined and unrefined, including maple sugar, may be exported by parcel post up to regulation weight when consigned to and intended for military and naval forces overseas, the limit of weight in the United Kingdom being 11 pounds, and for furthenceance in the United States. With this exception, no sugar may be exported from Canada unless under license."

SHOULD THEY SHARE.

Hon. Sir Frederick Smith, attorney-general for England, is at present in Canada, after spending some time in the United States. It is understood that the object of Mr. Smith's visit to this continent is to complete arrangements whereby subjects of any of the allied countries may be drafted into the army of any allied country in which they are residing. This is a matter which has been under discussion for some time and should be settled as soon as possible, as there is no doubt hundreds of young men are dodging their responsibility at present by jumping about from place to place to evade officials, and are giving the excuse that they are citizens of some foreign country. It is not fair that the best blood of this continent should be spilled to protect those who are not willing and ready to defend themselves.

As a result of the order-in-council placing null and void embargo for export, except under license from the Food Controller, no less than 6,540 tons of bran and shorts intended for the United States have been diverted for the use of Canadian farmers.

An ample supply of blubber for Canadian "requirement" next year at reasonable prices has been assured, as the result of an agreement reached between the United States Food Administrator and the Mexican sisal growers of Yucatan.

ABOUT POLL TAX.

At a recent meeting of the town council Councilman Lavelle brought up the question of imposing a poll tax in town, but on hearing from the Department of Municipalities at Edmonton it was learned that no provision was made for this form of taxation in the Town Act. However, if a poll tax is desirable, and it is the opinion of the council that we should have it, the matter should not be dropped at that. Town Acts have been changed before in order to comply with conditions and we have no doubt that if the council took the matter up either with the provincial government direct or through the Union of Municipalities some satisfactory arrangement could be made.

In the opinion of the Review towns should be allowed to impose a poll tax if they see fit, and we are also of the opinion that the imposing of a poll tax is quite justifiable. Why should not young men who are making their living in a town and enjoying whatever advantages that town affords, such as sidewalks, street lights, water, police protection, etc., pay their share for these advantages? They should take their share for the same as those who live in the country, yet under present conditions those who happen to own property do all the paying.

We have no doubt those who do not pay taxes on property would be quite willing to do their share through some other channel if the machinery for doing so were only put in motion and we think the council should not let the matter drop.

LESS SUGAR FOR CANDY.

Preliminary steps have been taken to curtail the use of cane sugar in the manufacture of candies. Manufacturers have been informed of the necessity for saving each sugar and are now endeavoring to adjust their business to the requirements of the situation. The money spent for candy in the United States and Canada in the past year is double the amount of money needed to keep Belgium supplied with food for a year.

Some horses, evidently belonging to someone in the surrounding country district, have been the cause of considerable annoyance to residents in the Arlington district. Their frequent nightly attacks on the hay and straw stacks, and their midnight promenades on private verandas have exhausted the patience of those being imposed upon in this way. They say "yink yink," as good as a knock to a blind horse, but as these horses are not blind their owners might take this hint and save themselves further trouble.

There is evidently some person in this town or district who has the "chain letter writing" bug, and is working it to a finish. At any time this letter business has always appeared to us as a very foolish idea but it is especially so just now when the time required for complying with the requests in these letters could be very much more profitably and advantageously spent. The writer of a communication in this issue dealing with these letters, sizes up the situation very nicely.

It is reported that a member of parliament down in Quebec has offered to resign his seat and give it to Hon. Frank Oliver, who was defeated in the recent general election. No doubt the Hon. Frank would feel more at home down there now.

An act has been passed at Ottawa making it a criminal offence for government officials and others—whichever, no doubt,

includes M. P.s—from using their influence or pull to get appointments and promotions in the civil service. Now that's going some. There will be no one better pleased with this than the M. P.s themselves.

Medical Inspection of Schools in Alberta

The Hon. J. R. Boffe, minister of education, announces that the government is commencing the establishment of a general system of medical inspection for the school children of the province. In some of the larger cities medical inspectors of schools have been employed for the past five or six years, but outside of the large cities boards of trustees have not availed themselves of the disciplinary measures conferred by the school ordinances of employing federal doctors, dentists and nurses to look after the health of school children. The needs of the country are just as great as those of the city. While the residence of the country children is fairly high on account of exercise and fresh air, the opportunities of securing medical advice and treatment for incipient troubles are few owing to the distance of many settlers from towns where there are doctors located. The work will be part of the work of the education department. The minister is convinced of the wisdom of substituting preventive treatment for treatment of sickness and disease. He is likewise resolved to assist in the health and medical services public services for the sake of economy as well as efficiency.

It is the intention of the department to make the carrying on of medical inspection in towns and cities compulsory at an early date, and the work will probably be done by officers employed by the trustee boards. In the villages and in the country it is probable that the work will be carried on by medical inspectors who are employed directly by the government. Inspection will apply to teachers as well as to pupils. It is proposed to appoint two inspectors and two nurses to begin with. It will be necessary to provide for the cost of the service either by a small general tax on lands or by a charge on the districts, determined by the work performed.

The work will be carried out with the co-operation of the district school inspectors, who are expected to make the work educational, as well as to give emphasis to defects which interfere with the progress of individual pupils.

Inventor Has Cure For All Troubles

A special dispatch to the Toronto Globe from Washington says: "There has appeared in Washington a man who claims to possess power to end the war, to hold the key to almost complete human comfort, to know the secret to make unnecessary the expenditure of so much money, to revolutionize the whole world system of doing things, who says he can impart to society the money by which the new dense wilderness may be made inhabitable, by which the need for labor will be delivered from an age of work and care into an era of ease and happiness." His name is Garabed R. K. Giragosian.

"This man has convinced the congress of the United States that his claim is worth looking into, and the congress has shattered all precedents by passing a joint resolution authorizing him an absolute and irrevocable patent on his discovery on the one condition, that the government of the United States may have the use of it free of all charge in the event that a commission of scientists provided for in the measure make a report that the discovery is of use to society."

WILL ENFORCE THE MILITARY SERVICE ACT.
 That the union government intends to carry out an equitable administration of the Military Service Act in all provinces of the Dominion and that the public will receive definite information relative to the response under the act in each province, is the essence of a telegram sent out by Sir Robert Borden to inquire in British Columbia.

A dispatch from Vancouver says an intimation was given by Hon. William Sloan, president of the union of miners that Vancouver might become the headquarters of a large electrical smelting and steel plant industry, and enter the world's competition for steel ship-building "on the same basis as Belfast and Glasgow."

Barberry Bush Causes Black Rust

A report from Washington says: "The heretofore innocently regarded ornamental barberry bush, so unusually common throughout the northwest, must go. National war is to be declared on it. Scientists have detected the severe indictment against it that it is responsible for the black rust in wheat, a pest that has caused millions of dollars of damage." Congressman George M. Haug of North Dakota, has just succeeded in having inserted in the agricultural bill a provision providing for the appropriation of \$50,000 for the commencement of a national campaign. The barberry is an ornamental bush, bearing scarlet berry and frequently found in the villages and cities of the northwest.

The identification of the barberry as the cause of black rust comes from Denmark, where its eradication has resulted in the eradication of the black rust.

Germany should not take any territory from the Russian empire and might give back Alsace-Lorraine to France, Maximilian Harden declares in Die Zukunft.

WANT OF FOOD HAS TERRIBLE RESULTS

Some idea of what follows in the train of under-feeding, which is present everywhere in Belgium, may be gathered from the following statistics from an official source: Since 1914 general mortality in Belgium has risen by 50 per cent, while deaths have fallen off about 25 per cent. In Ghent and northern France deaths from tuberculosis have multiplied sixfold.

SOLDIERS SUPPORT P. E. L. UNIONISTS.

Donald McEwen, of Charlottetown, P. E. L. union candidate for Queen's at the recent election, has received a message from a friend in Ottawa stating that 400 soldiers in Canada voted for his colleague, Martin, and himself. This taken in connection with probabilities of the overseas vote, indicates the election of the two unionist candidates.

NOTICE

Legislative
Assembly
Province of
Alberta

Take Notice, the time for receiving
Petitions for Private Bills at the next
Session of the Legislative Assembly
will expire on Monday, the 15th day
of February, 1918.

JOHN R. COWELL,
Clerk of the House.

LEGISLATIVE ASSEMBLY OF
THE PROVINCE OF ALBERTA

Extract From Rules

Relating to Private Bills.

317. All petitions for Private Bills
shall be in duplicate and must be
deposited on the desks of the House no
later than the 15th day before the
opening day of the Session. No peti-
tion for any private bill shall be re-
ceived by the House after the 15th day
of each Session, nor may any private
bill be presented to the House after
the tenth day of each Session, nor
may any report of any standing or
select committee or of any committee
be received after the fifteenth day of
each Session, except as provided for
under Rules 318, 319, 324 and 325, and
it shall be the duty of any committee
to which any private bill is referred
to consider and report the same to the
House with all convenient speed.

318. All applications for Private
Bills, properly the subject of Legisla-
tion by the Legislature of the Province
of Alberta within the purview of "The
British North America Act," and for
the erection of a bridge, the making
of a road, railroad, turnpike, road,
telegraph or other public work, the
construction or improvement of a
harbour, canal, lock, dam, or other
like work, the granting of a right of
way, the incorporation of any
particular trade or calling, or of
any joint stock company; or otherwise
for granting to any person or persons,
individually, any exclusive or peculiar
rights or privileges whatever, or
for any matter or thing which in
operation would affect the rights or
property of other persons, shall be
any particular class of the community,
or for making any amendment of any
law, shall be referred to the
Legislative Assembly, and the
Legislative Assembly, upon the
application, and where the applica-
tion refers to any proposition
indicating generally the location of
the work, and signed by or behalf of
the applicants, such notice to be pub-
lished, during four weeks, between the
close of the next preceding Session
and the time of the consideration of
the Petition, in four copies of "The
Alberta Gazette," and one other news-
paper published in English and not
less than ten days before the opening
day of the Session, two copies of the
said Bill with the memorial thereon
certified shall be placed by applicant in
the hands of the Clerk of the House,
whereupon it shall be the duty of the
Clerk to print forthwith.

319. A copy of a notice with a
statutory declaration of publication of
advertisement, shall be sent by the
applicant, inserting such notice to the
Clerk of the House, not later than ten
days before the opening day of the
Session, which notice shall be filed in
the office of the Clerk of the House.

320. Every applicant for a Private
Bill shall deposit with the Clerk of
the House ten days before the meet-
ing of the House, a receipt from the
Provincial Treasurer for a sum of two
hundred dollars. If the said Bill does
not exceed ten pages, and ten dollars
additional for each page over that
number, and for the purpose of this
Rule four hundred and fifty words
shall be held to constitute a page, and
if such Bill is not deposited by the
applicant in addition to the sum of two
hundred dollars for each and every day
which intervenes between the said tenth
day of the Session.

321. In addition to the foregoing
charges, the applicant shall pay from
the tenth day to the twentieth day of
the Session for each and every day a
further sum of fifty dollars.

322. After the expiration of twenty
days from the opening of the House,
the aforesaid amounts, together with an
extra penalty of one hundred dollars,
and in case of a Bill incorporating
a compulsory receipt, from the
Registrar of Joint Stock Companies
for fees as fixed by law for the registra-
tion of Joint Stock Companies.

323. Accepted cheques in payment
of fees should be made payable to the
Provincial Treasurer, and forwarded to
the Clerk of the House along with the
copies of the Bill.

324. Where any petition praying
for leave to bring in a Bill for the
construction of railways, tramways or
canals, or for changing the route of a
railway, tramway or canal of any com-
pany already incorporated, is received
by the House, the person or persons
petitioning for such Bill, shall deposit
with the Clerk the following docu-
ments:

325. A map or plan upon a scale of
not less than one inch to three miles
showing the location upon which the
Bill is intended to be constructed, the proposed
work, and showing also the position of
existing or authorized works, of a simi-
lar character within a radius of thirty
miles from the location of the proposed
work, together with the name of each
settlement within such radius, and the
date of work or any part thereof are in-

tended to be constructed, such map or
plan to be signed by the engineer or
other party making the same. Also a
general description of the nature, ex-
tent and proposed character of the
proposed work, and an estimate
of the probable cost thereof.

326. All Private Bills for Acts of
incorporation of or in amendment of
incorporating railway companies
shall be drawn in accordance with the
Model Bill attached to these Rules.
The Bill which may be obtained from
the Clerk of the House.

327. The provisions contained in
any Bill which are not in accord with
the Model Bill, shall be inserted by
the House, and the Bill, as revised by
the proper officer, shall be so printed,
and this Bill shall be returned to the
promoters to be re-cast before being
revised and printed.

328. Any sections of existing Acts
which are proposed to be amended
shall be reprinted in full, with the
amendments inserted in their proper
places and between brackets.

Slav Leader Charges

Huns With Deception

M. Karshner, secretary of the Rus-
sian delegation at the Peace Conference,
has made an official protest to
the British and American delegations,
heads of the German and Austro-
Hungarian delegations regarding the omis-
sion from the official German report
of the declaration of the Peace Conference
of the last sitting of the peace confer-
ence respecting the attitude of the
Central Powers.

M. Trotsky said that after a Por-
tuguese negotiations Germany and
Austria were insisting on terms con-
fined to the principles they acknowl-
edged in their announcement of De-
cember 22 respecting peace without
conditions or indemnities.

A long statement dealing with the
Brest-Litovsk negotiations, issued
through the Bolshevik Telegraph
agency at Petrograd, emphasizes the
absolute German refusal to give any
sort of a guarantee of the evacuation
of occupied territories. "In such cir-
cumstances," says the statement, "the
world's self-determination sound of
mockery of principles and the people
concerned."

British Lords Vote
To Change Election Bill

The British House of Lords by 122
to 42 votes introduced an amendment in
to the representation of the people
bill, maintaining the principle of pro-
portional representation in parliamen-
tary elections.

The House of Commons has twice
rejected the principle of the propor-
tional representation, and it is ex-
pected that when the bill is returned
to the Commons the amendment will
be rejected, especially as an attempt
to include the principle in the pres-
ent bill would tend to delay or pos-
sibly kill the measure.

PRICES IN BELGIUM AS PER
CENT LOWER THAN U.S.

A film that deals with the most
vital problem of this country, namely,
the conservation and distribution of
the food supply, is the great first part
of a propaganda picture, "The Public
Enemy," which will be shown at the
Amuse-theatre on Thursday and
Friday of this week. Herbert Hoover,
secretary of the United States
Department of Agriculture, makes the statement that
the prices in war-stricken Belgium are
40 per cent lower than in New York
city.

Quebec Does Not

Favor Secession

The debate on the Frencheser me-
tion relative to Quebec's position in
Confederation was resumed in the
Quebec assembly yesterday. But it
met with even less favor than it did
when it was brought up last week.
Intense content in what Sir Lewis
Gouin, premier of the province of Que-
bec, would say, and again the gal-
lery were crowded. The house was
doomed to disappointment, however, as
the five speeches which were heard
took up the entire afternoon and be-
fore the house adjourned Sir Lewis
Gouin moved the adjournment of the
debate and will probably conclude it
today. A dash of humor was unex-
pectedly introduced into the debate by
Dr. G. B. Gagnier, member for Fran-
cophone, who alluded to Sir Lewis by
saying that Quebec had her bull dog
as well as England. He said that
Quebec's bull dog would never let go.
He remarked that the clergy of the
province of Quebec were the same
leading the French-Canadians through
the Red Sea, and that Sir Lewis
Gouin would be the Jesus to bring
them to the Promised Land.

Louis Lefebvre, member for
Quebec East, was the only speaker
who did not support the motion.
He said that if a split war necessary

ing, for the divorce. It was re-

To Probe Alleged

Corner in Oats

Dr. R. Macgill, chairman of the
board of grain supervisors, when in-
terviewed as to the alleged corner in
oats, said: "The board of grain super-
visors has asked A. B. Wilson, De-
monion seed purchasing commissioner,
for such information as he has bearing
on the alleged corner of seed oats.
Mr. Wilson is at the moment in Be-
gina, but will be in Winnipeg shortly
in conference with the board of grain
supervisors. The board desires to
make any comment on the statement
attributed to Mr. Wilson until after
the conference."

"The matter is before Mr. Hanna,"
J. D. McGregor, western representa-
tive of the food controller, stated
when approached on the subject.
"There is no doubt that the food con-
troller will take adequate steps to pre-
vent a corner if his investigations
lead him to believe that such an at-
tempt has been made. I cannot say
anything further than that, accord-
ing to Mr. Wilson's complaint, he
needed 500,000 bushels of seed oats,
and that he was only able to obtain a
small part of it."

A statement made at Regina, A.
B. Wilson, Dominion seed purchasing
commissioner, charged that big quan-
ties of oats suitable for seed, had
been cornered by a syndicate of
grain dealers in Winnipeg and other
prairie cities and exorbitant profits
were being demanded.

Rome and Washington

Connected by Radio

Direct radio communications be-
tween the government station in
Rome and the Arlington station of the
United States navy, has been success-
fully established and is being used
daily for communications passing be-
tween the two governments and be-
tween their diplomatic representatives
and foreign offices. The daily state-
ments of the Italian war office will
be received by radio from Rome and
be sent for publication in the United
States.

A crowd of 50 or 60 thousands
gathering in the poorer districts of
London gathered in front of the
prime minister's residence. They
said they wanted to see the premier
and ask him: "How long must we
stand in queues for food?"

Expect Huns Will

Strike Haig Lines

EXPECT HUNS WILL

A special cable from Paris says:
"French military critics who since
early in December have been weigh-
ing the probability and chances of
the possible points of attack in the
expected German offensive have vir-
tually come to an agreement that it is
likely to be delivered on one or two
sectors, possibly on both."

Their conclusions are based on re-
ports of movements of German troops
and the elimination of various fronts
for strategic reasons. A great con-
centration of German forces in Be-
ginia where several hundred thousand
of fresh German troops have arrived
composed principally of the best units
withdrawn from the Russian front in-
dicates, in their opinion, that the British
line in Flanders will soon be sub-
jected to intense pressure. It is no
secret that the German military chiefs
desire particularly, for its political
and diplomatic effect, to recapture ter-
ritory from Field Marshal Haig's
army. The latest reports state that
the movement of troops in the neigh-
borhood of Amiens is so great that
traffic between that city and Brussels
is almost at a standstill.

The other front where a German at-
tack is considered most probable is in
the Grand Couronné of Nancy. Here
too, there has been a great concentra-
tion of troops between Strasbourg and
Metz, where four double-tracked rail-
ways and numerous automobile roads
afford the means of rapid transporta-
tion for throwing a heavy force
against the Lorraine front with the
purpose of capturing the base of opera-
tions.

The repulse of the German crown
prince in this sector in 1914 furnished
an additional reason for an attempt by
the Germans to succeed where once
they had failed.

A crowd of 50 or 60 thousands
gathering in the poorer districts of
London gathered in front of the
prime minister's residence. They
said they wanted to see the premier
and ask him: "How long must we
